INTRODUCTION

Thank you!
Thank you for choosing a Jensen product. We hope you will find the instructions in this owner’s manual clear and easy to follow. If you take a few minutes to look through it, you’ll learn how to use all the features of your new Jensen receiver for maximum enjoyment.

Features
Features of Jensen JWM45 mobile audio system include:
• Digital AM/FM Tuner/30 Preset stations (12 AM/18 FM)
• Bluetooth Ready with A2DP/AVRCP Streaming Audio
• Electronic Bass, Treble, Balance and Fader Controls
• DVD/CD-R/RW and MP3 Compatible
• HDMI OUTPUT with ARC/CEC
• Time/Alarm Clock
• LCD Backlight Control
• 1/8” Front Auxiliary Audio/Video Input
• Rear Audio RCA Inputs/Outputs
• USB Playback of MP3/WMA Files
• 2 Zone / 4 Speaker Output
• Wireless Remote Control Included

Precautions
• Use the Proper Power Supply
  This product is designed to operate with a 12 volt DC, negative ground battery system (the standard system in a North American vehicle)
• Protect the Disc Mechanism.
  Avoid inserting any foreign objects into the slot of this player. Failure to observe this may cause malfunction due to the precise mechanism of this unit.
• Use Authorized Service Centers.
  Do not attempt to disassemble or adjust this precision product; contact a professional for assistance.
• Avoid Moisture.
  To reduce the risk of fire or electric shock, do not expose this equipment to rain or moisture.
  
• Avoid Cleaning Products.
  The front of this unit should only be cleaned with a slightly damp cloth. Do not use cleansers.
• Use Recommended Accessories.
  TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK AND ANNOYING INTERFERENCE, USE ONLY THE RECOMMENDED ACCESSORIES.

CAUTION: This mobile DVD player is a Class I laser product that uses a visible/invisible laser beam which could cause hazardous radiation exposure if improperly directed. Be sure to operate the mobile DVD player as instructed. Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure. Do not open covers and do not attempt to repair the unit yourself. Refer servicing to qualified personnel.

Remote Control

20-PIN Speaker Wire
DISC NOTES

Depending on the recording status, conditions of the disc, and the equipment used for recording, some CD-Rs/CD-RWs may not play on this unit. For more reliable playback, please adhere to the following recommendations:

- Use CD-RWs with speed 1x to 4x and write with speed 1x to 2x.
- Use CD-Rs with speed 1x to 8x and write with speed 1x to 2x.
- Do not play a CD-RW which has been written more than 5 times.

NOTE: CD-R and CD-RW discs will not play unless the recording session is closed and the CD is finalized.

Disc Maintenance

- A dirty or defective disc may cause sound dropouts while playing. Before playing, wipe the disc using a clean cloth, working from the center hole towards the outside edge. Never use benzene, thinners, cleaning fluids, anti-static liquids or any other solvent.
- Be sure to use only round CDs for this unit and do not use any special shape CDs. Use of special shape CDs may cause the unit to malfunction.
- Do not stick paper or tape on the disc. Do not use CDs with labels or stickers attached or that have sticky residue from removed stickers.
- Do not expose discs to direct sunlight or heat sources such as hot air-ducts, or leave them in a vehicle parked in direct sunlight where there can be a considerable rise in temperature inside the vehicle.

Insert label side up. Do not bend. Never touch the underside of the disc. Wipe clean from this center to the edge.

NOTE: A disc may become scratched (although not enough to make it unusable) depending on how you handle it and other conditions in the usage environment. These scratches are not an indication of a problem with the player.
INSTALLATION

It's a good idea to read all of the instructions before beginning the installation. We recommend having your Jensen JWM45 installed by a reputable RV dealership.

Tools and Supplies
You will need these tools and supplies to install your JWM45:
- Phillips screwdriver
- Wire cutters and strippers
- Tools to remove existing radio (screwdriver, socket wrench set or other tools)
- Electrical tape
- Crimping tool
- Volt meter/test light
- Tools to remove existing radio (screwdriver, socket wrench set or other tools)
- Electrical tape
- Crimping tool
- Volt meter/test light
- Crimp connections
- 16 gauge wire for power connections
- 16-18 gauge speaker wire
- Four M3x20mm (3/32 x 0.75") screws

Disconnecting the Battery
To prevent a short circuit, be sure to turn off the ignition and remove the negative (-) battery cable prior to installation.

NOTE: If the JWM45 is to be installed in a vehicle equipped with an onboard drive or navigation computer, do not disconnect the battery cable. If the cable is disconnected, the computer memory may be lost. Under these conditions, use extra caution during installation to avoid causing a short circuit.

Selecting the Mounting Location
Select a mounting location, taking care to avoid the following:
- Places exposed to heat-radiating appliances such as electric heaters
- Adjacent to other equipment that radiates heat
- Poorly-ventilated or dusty places
- Moist or humid locations

Preparing the Opening
Use the mounting hole diagram (right) to measure and cut a mounting hole, then mount the unit using four M3x20mm screws.
WIRING

The wiring diagram depicts all the wiring connections required for proper operation of the unit.

### WARNING

Wiring harness comes with stripped and tinned leads to aid in the installation process. Any unused speaker wires must have their exposed ends cut off or insulated individually.

CONNECTIONS

The wiring diagram depicts all the wiring connections required for proper operation of the unit.
BASIC OPERATION

Power
Press the POWER button (16) turn the unit on or enter standby mode. The unit will resume at the last mode (Tuner, Aux, etc.) after turn on.

Volume Control
Rotate the VOL encoder knob control clockwise to increase or counter-clockwise to decrease the volume output. The maximum volume setting is “40”. While adjusting the volume, the LCD displays numerical representation of the level.

Audio Menu Setting
Press the AUDIO button (22) to step through the following audio adjustment options. Rotate the VOL/ENTER encoder knob control to adjust the selected audio feature.

- The following audio menu items can be adjusted:
  - BAS: Adjust the Bass level from “-7” to “+7”.
  - TRE: Adjust the treble from “-7” to “+7”.
  - BAL: Adjust the speaker output balance between “L7” (left) and “R7” (right).
  - “BAL 0” indicates an equal balance between the left and right speakers.
  - FAD: Adjust the speaker fade between “R7” (rear) and “F7” (front). “FAD 0” indicates and equal balance between the rear and front speakers.
  - LOUDNESS: Toggle the loudness on/off. When listening to music at low volumes, this feature will boost the bass/treble range to compensate for the characteristics of human hearing.

Pause/Mute
Press the button (3) to silence the audio output in tuner, CD, DVD, BT, USB, ARC or auxiliary input mode. Press again to restore the previous volume level.

Liquid Crystal Display (LCD)
The liquid crystal display (LCD) panel (20) displays the frequency, time and activated functions. Press the BRIGHT UP button (34) to increase the LCD brightness and press the BRIGHT DOWN button (32) to decrease the LCD brightness from “LEVEL 0” (off) to “LEVEL 8” (brightest).

NOTE: When subjected to cold temperatures for an extended period of time, LCD panels will take longer to illuminate and the display visibility may slightly decrease. Optimal LCD operation will return to normal when the temperature increases to a normal range.

System menu setting
1. Press the SETTINGS button (23) to enter the system menu.
2. Press SETTINGS button or press the [<< or >>] (2,5) to choose the following system menu list.
3. Once the desired menu item appears on the display, adjust that option by rotating the volume encoder knob clockwise or counter-clockwise within 5 seconds.
4. Press the ENTER button (4) to confirm your selection and exit system menu. The unit will automatically exit the system menu after 5 seconds of inactivity.

This function will time out after five seconds of inactivity and the unit will resume normal operation.
The following audio menu items can be adjusted:

- Bluetooth Device (Locked/Unlocked, Disconnect/Connect, Delete): view, lock and delete from a list of previously paired mobile device models.
- Bluetooth Pair: Press ENTER button (4) to automatically pair a device.
- Bluetooth On/Off: Choose “Bluetooth On” or “Bluetooth Off”.
- Beep On/Off: Turn the audible beep On/Off (heard when functions/buttons are selected).

Note: Beep tone off will not affect the audible tone of the alarm clock.
- Brightness Level: Choose button and LCD brightness from 0-8.
- Region (USA/Europe): Set frequency spacing for various regions.
- Preset Volume PVOL (1-40): Select an automatic turn on volume.
- RESET: Press ENTER button (4) to reset the JWM45 to factory default settings.

**Auxiliary Input Function**
Press the AUX button (14) to directly access auxiliary input modes (AUX IN1 and AUX IN2) from any other mode when a portable audio device is connected to the unit. To connect a portable audio device, insert a standard 3.5mm (audio line output or headphone output from your portable CD / MP3 / iPod or other media player) into the AUX A/V IN connector (AUX IN1) (36) on the front of the unit or the AUDIO IN (AUX In2) on the back of the unit (see “Wiring” on page 4).

**Auxiliary Input Connector**
For front panel A/V input, an external audio/video (A/V) source such as a video game player, camera, etc. can be connected to the front panel A/V input with 3.5mm A/V cable adapter (Please note that there are several different A/V cable “standards”). Connect the device to the AUX A/V IN connector (36) on the front panel of the unit or the AUDIO IN (AUX In2) on the back of the unit (see “Wiring” on page 4).

**USB Interface Connector**
You can connect a USB device directly to USB interface (19) on the front of the JWM45 for playback of compatible files. Playback begins automatically. Press the USB button (12) to switch to USB mode from another source. Refer to “MP3/USB Operation” on page 15 for additional operating instructions.

**NOTE:** USB will not support Apple device playback. The USB input supplies up to 1A of charging current.

**Clock Display**
Press the VIEW button (25) to alternate between playing time and clock time while in Tuner, CD, DVD, USB, ARC or auxiliary input mode.

**Clock Setup**
Press and Hold the clock HOUR or MINUTE button (28, 30) to access clock setup mode. The number representing the hours and minutes will flash. Press the HOUR button (28) to adjust the hour and press the MINUTE button (30) to adjust minutes. The new time will be saved five seconds after the last adjustment is made.

**Sleep Timer**
The Sleep Timer will automatically turn off the JWM45 in the designated number of minutes. To set the Sleep Time, press the SLEEP button (26) and the sleep time will appear in the display with the number representing the minutes (SLEEP 15). Press SLEEP button repeatedly to change the sleep time from 0 (OFF), 15, 30, 45 or 60 minutes.

**Alarm Setting**
To set the alarm, press and hold the ALARM button (24) for 2 seconds and the clock digits will be flashing. Press the HOUR button to adjust the hour once at a time or press and hold to advance rapidly. Repeatedly press the MINUTE button to adjust the minute one digit at a time, or press and hold to advance rapidly. Press the ENTER button to save the alarm time and exit the alarm setting menu.

Once a time is set, press ALARM (24) to turn the alarm function on or off. If the new alarm time is not confirmed by pressing the ENTER button, the unit will automatically exit the alarm setting menu after 5 seconds of inactivity and the new alarm time will be set.

**Remote Sensor**
Infrared receiver (18) is located on the upper left of front panel to receive infrared signal emitted by the remote control.

**Speaker Output**
The two speaker output buttons (15, 17) (Zone A, Zone B) control speaker zones output from the radio. Press any of the two buttons to turn the corresponding speaker zone on or off. SPK A (Zone A), SPK B (Zone B) will appear on the display.
**Reset**

The reset button should be activated for the following reasons:
- Initial installation of the unit when all wiring is completed.
- Function buttons do not operate.
- Error symbol on the display.

Use a ball point pen or similar object to press the **RESET** button (21). This may be necessary should the unit display an error code.

**HDMI ARC**

Connect HDMI cable to JENSEN TV with ARC function and JWM45 radio head unit. If the set up and operation is correct, the TV audio will come out from the speaker of the head unit after switching to HDMI ARC mode.

### The reset button should be activated for the following reasons:

- **If the TV can play the device automatically, there will be TV audio out. Otherwise, switch to USB mode to play the device.**
TUNER OPERATION

Select a Band
1. Press AM button (7) repeatedly to select the band (AM1, AM2).
2. Press FM button (8) repeatedly to select the band (FM1, FM2, and FM3).

Manual Tuning
Press the >> or << buttons (5, 2) to seek stations up/down step by step.

Auto Seek Tuning
Press and Hold the >> or << buttons (5, 2) to automatically seek to the next or previous strong station.

Preset Stations Menu
Six numbered preset buttons store and recall stations for each AM and FM band.

Store a Station
Select a band (if needed), then select a station. Press and Hold a 1-6 preset button for 2 seconds, the preset number will appear on the display.

Recall a Station
Select a band (if needed), Press a 1-6 preset button to select the corresponding stored station.

Automatically Store / Preset Scan (AS/PS)
Automatically Store
Select an AM or FM band. Press and Hold the AS/PS button (6) for more than 3 seconds and the unit will automatically scan for and store 12 or 18 strongest station for all bands. To stop this function before the automatic storing is complete, press AS/PS again.

Preset Scan
Select a band. Press AS/PS button (6) to scan stations stored in the current band. The unit will pause for 10 seconds at each preset station. Press AS/PS again to stop scanning when the desired station is reached.
DISC OPERATION

Track Select
Press the ▶▶ or ◀◀ button (5, 2) to advance to the next or previous track on the CD. The selected track number will appear on the display. Press the ▶▶ button (3) to start the playback of the selected track.

Fast Forward/Reverse
Press and hold the ▶▶ or ◀◀ button (5, 2) or press the >> or << buttons on the remote control (14) once for FORWARD X 2. Press and hold additional times for FORWARD X 4, X 8, X 20 or PLAY. Press the ◀◀ button on the control panel (3) or remote control (17) to end fast forward or reverse and resume normal playback.

Intro Scan (INT)
Press the AS/PS button (6) during disc play to play the first 10 seconds of each track on the current disc. Press AS/PS button (6) again to end the scan and play the selected track.

Repeat (RPT)
Press the RPT button (33) or RPT buttons on the remote control (20) to access the repeat function. Press again to continuously repeat the selected track (RPT ONE). Press the third time to repeat all tracks (RPT ALL). Press one more time to stop the repeat function (RPT OFF).

Random Shuffle (RDM)
Press the RDM button (31) to play all tracks on a CD in random, shuffled order (RDM ON). Press RDM again to stop random play (RDM OFF).

Programmed Playback
1. Press the PROG button (7) on the remote control to access the programmed playback screen.
2. Use the next or previous cursor buttons (15) on the remote control to access the fields on the “PROG” screen.
3. Use the number buttons on the remote control to enter a track number in each field.
4. Press the ◀◀ or ▶▶ button (17) on the remote control or highlight “PLAY” on screen and then press the ENTER button (5) to begin playback in the numbered order indicated to delete the list, highlight “CLEAR” and then press ENTER. Press PROG to exit the programmed playback screen.

CD OPERATION

Inserting a CD
Insert a CD label-side up into the disc slot (11) and the disc will begin to play automatically.

Ejecting a CD
Press the EJECT button (13) to stop CD play and eject the CD.

Pausing Playback
Press the ◀◀ button (3) to suspend or resume disc play.

Stop Playback
Press the ■ button (27) to suspend disc play. Press the ◀◀ button (3) to resume disc playback from the last position. Press 1 ■ button twice and “STOP” will appear on the display.
Remote Control Direct Track Entry
To select a track directly, use the number pad on the remote control (9).
For single digit entries, press the corresponding number. For two digit entries, press the 10+ button followed by the last digit (i.e., for track 16, press 10+ and then 6).

GOTO Direct Track/Chapter Access
Use the GOTO function to access a track (chapter) directly.
1. Press the GOTO button (25) on the remote control. The On Screen Display information will appear with the track number highlighted.
2. Use the number keys on the remote control to enter the 3-digit track number directly (i.e., for track 10, enter “010”).
3. Press the ENTER button (5) to confirm and begin playback.

CD Playback Information
The following information is displayed at the top of the screen during CD playback:

TRK ##/## –“1/18” indicates the first of 18 tracks on the CD is currently playing.
X “X” indicates repeat play is OFF, “1” indicates repeat track, and “A” indicates repeat disc.
Press the button on the remote control (26) repeatedly to view the following information for elapsed/remaining playing time:
00:02:18 –total elapsed playing time of current track;
C–00 :34 :37–remaining playing time of current track;
T 00:02:18 –total elapsed playing time for current disc;
T –00 :34 :37 –remaining playing time for current disc.

DVD/VCD OPERATION

Inserting a Disc
Insert a disc label-side up into the disc slot (11) and the disc will begin to play.

Ejecting a DVD
Press the EJECT button (13) to stop DVD play and eject the DVD.

Play/Pausing Playback
Press the button (3) to suspend or resume disc play.

Stop Playback
Press the button (27) to suspend disc play, and “PRE STOP” will appear in the display. Press the button (3) to resume disc play from the last position. Press the button (27) again and “STOP” will appear on the display.

Track Select
Press the button (5, 2) to advance to the next or previous track on the disc. The selected track number will appear on the display.

Menu Select
While in menu mode, press the BAND DVD MENU button (1) to select a menu option.

Fast Forward/Reverse
Press and hold the button (5, 2) or press the button (5, 2) on the remote control (16) once for FAST FORWARD/REVERSE X 2. Press and Hold additional times for FORWARD X 4, X 8, X 20 or PLAY. Press the button (3) on the control panel or remote control (17) to end fast forward or reverse and resume normal playback.

Repeat Chapter/Title
• VCD: RPT 1(track), RPT ALL(disc), RPT OFF
• DVD: RPT Chapter, RPT TITLE, RPT ALL, RPT OFF

Programmed Playback
1. Press the PROG button (7) on the remote control to access the programmed playback screen.
2. Use the ◄► or ▲▼ cursor buttons (15) on the remote control to access the fields on the "PROG" screen.
3. Use the number buttons on the remote control to enter a track number in each field.
4. Press the ►/|| button (3) on the remote control or highlight "PLAY" on screen and then press the ENTER button (4) to begin playback in the numbered order indicated. To delete the list, highlight "CLEAR" and then press ENTER. Press PROG to exit the programed playback screen.

**DVD Playback Features**
The following remote control features, along with many others, are available during DVD playback (see “Remote Control Operation” on page 19 & 20 for complete functionality):
- **LANG**: Press to choose an alternate audio language, if available.
- **SUBTITLE**: Press to select an alternate subtitle language, if available.
- **ANGLE**: Press to select an alternate viewing angle, if available.
- **ZOOM**: Press to zoom the picture at ZOOM 2, ZOOM 3, ZOOM 4, ZOOM 1/2, ZOOM 1/3 or ZOOM 1/4, or select OFF to return to normal view.

**NOTE**: Feature availability is dependent upon DVD embedded information.

**Playback Information**
During DVD playback, press the button (26) on the remote control to display playback information on the screen, including the media playing and current playback time.
Pressing the button to display additional information, as indicated below.

**DVD Playback Information**
The following information is displayed at the top of the screen during DVD playback:

```
<table>
<thead>
<tr>
<th>DVD</th>
<th>TT</th>
<th>CH</th>
<th>00:33:34</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>5/8</td>
<td>2/16</td>
<td></td>
</tr>
<tr>
<td>1/5 ENG</td>
<td>5.1 CH</td>
<td>1/4 ENG</td>
<td>OFF</td>
</tr>
</tbody>
</table>
```

- **TT 5/8** – "5 / 8" indicates the fifth of 8 titles on the DVD is currently playing.
- **CH 2/16** – "2 / 16" indicates that the second of 16 chapters on the DVD is currently playing.

Press repeatedly to view the following information: for elapsed/remaining playing time:

- **00:02:18** – total elapsed playing time of the current track;
- **C – 00:34:37** – remaining playing time of the current track;
- **T 00:02:18** – total elapsed playing time for disc;
- **T – 00:34:37** – remaining playing time for disc.

**Remote Control Direct Track Entry**
To select a track directly, use the number pad on the remote control (9).
For single digit entries, press the corresponding number. For two digit entries, press the 10+ button followed by the last digit (i.e., for track 16, press 10+, then 6).

**GOTO Direct Track/Chapter Access**
Use the GOTO function to access a track (chapter) directly.
1. Press the GOTO button (25) on the remote control. The On Screen Display information will appear with the track number highlighted.
2. Use the number keys on the remote control to enter the 3-digit track number directly (i.e. for track 10, enter "010").
3. Press the ENTER button to confirm and begin playback.
After loading an MP3 disc or USB device, the following screen will appear on your output monitor.

**MP3 Monitor Display**

Maximum number of folder levels: 12  
Maximum number of MP3 files: 999  
Maximum number of characters for MP3 files name and folder name: 32  
Maximum number of Characters of ID3 Tag:  
- ID3 Tag version 1.0: 32  
- ID3 Tag version 2.x: 32

Select one of these icons to access the corresponding media on your disc or USB device. If the media type is not present, the icon will not be selectable.

- Audio  
- Photos  
- Video

**Play/Pause**  
Press the button (3) to suspend or resume media playback.

**Track Select**  
Press the or button (5, 2) or button (14) on the remote control to advance to the next or previous track in the current folder. The selected track number will appear on the display.

**Folder Up/Down**  
Press the (37) to access a higher folder level (FOLDER UP).  
Press the (35) to access a lower folder level to access a lower folder level (FOLDER DOWN).  

---

**Inserting a USB Device**  
The USB connector (12) is at the right side of the panel. Insert a USB device to automatically access USB mode and begin playback. The LCD will display “LOADING” and “USB” while files are initially loaded. When USB is removed, it will automatically back to the previous mode before the USB is connected. During other playback mode, when USB is connected, press USB (12) to enter USB playback mode directly.

**NOTE:** MP4 video format is not supported.

**MP3 Specifications**  
Notes on MP3 Playback:  
- Any directory that does not include a MP3 file is skipped.  
- Maximum number of folders: 512 (including skipped directories).
Intro Scan (INT)
Press the AS/PS button (6) during disc play to play the first 10 seconds of each track on the current disc. Press AS/PS again to end the scan and play the selected track.

Repeat (RPT)
Press the 4 ☯ button (33) on the control panel or the RPT button (20) on the remote control multiple times during playback to select from the following repeat play options: RPT 1 (track), RPT DIR (folder), RPT ALL (disc), OFF.

Random Shuffle (RDM)
Press the 4 ▼ button (31) during song playback to play all files in random, shuffled order. Press the 4 ▼ button (31) again to stop random play.

Fast Forward/Reverse
Press and hold the >> or << buttons or press the >> or << buttons on the remote control (16) once for FORWARD X 2. Press and hold additional times for FORWARD X 4, X 8, X 20 or PLAY. Press the ▶ || button on the control panel (3) or remote control (17) to end fast forward or reverse and resume normal playback.

Programmed Playback
1. Press the PROG button (7) on the remote control to access the programmed playback screen.
2. Use the◄ ► or ▲ ▼ cursor buttons (15) on the remote control to access the fields on the “PROG” screen.
3. Use the number buttons on the remote control to enter a track number in each field.
4. Press the ▶ || button (17) on the remote control or highlight “PLAY” on screen and then press the ENTER button (5) to begin playback in the numbered order indicated. To delete the list, highlight “CLEAR” and then press ENTER. Press PROG to exit the programmed playback screen.

Remote Control Direct Track Entry
To select a track directly, use the number pad on the remote control (9). For single digit entries, press the corresponding number. For two digit entries, press the 10+ button followed by the last digit (i.e., for track 16, press 10+ and then 6).

GOTO Direct Track/Chapter Access
Use the GOTO function to access a track (chapter) directly.
1. Press the GOTO button (25) on the remote control. The On Screen Display information will appear with the track number highlighted.
2. Use the number keys on the remote control to enter the 3-digit track number directly (i.e., for track 10, enter “010”).
3. Press the ENTER button to confirm and begin playback.

MP3 Playback Information
The following information is displayed at the top of the screen during CD playback:
TRK ##/## – “9/150” indicates the ninth of 150 tracks on the disc is currently playing.
X “X” indicates repeat play is OFF, “1” indicates repeat song, and “D” indicates repeat directory (folder).
Press button (26) repeatedly to view the following information for elapsed/remaining playing time:
F 00:02:18 – total elapsed playing time for disc
C 00:34:37 – remaining playing time
T 00:02:18 – total elapsed playing time for current track
C 00:34:37 – remaining playing time for current track

Intro Scan (INT)
Press the AS/PS button (6) during disc play to play the first 10 seconds of each track on the current disc. Press AS/PS again to end the scan and play the selected track.

Repeat (RPT)
Press the 4 ☯ button (33) on the control panel or the RPT button (20) on the remote control multiple times during playback to select from the following repeat play options: RPT 1 (track), RPT DIR (folder), RPT ALL (disc), OFF.

Random Shuffle (RDM)
Press the 4 ▼ button (31) during song playback to play all files in random, shuffled order. Press the 4 ▼ button (31) again to stop random play.

Fast Forward/Reverse
Press and hold the >> or << buttons or press the >> or << buttons on the remote control (16) once for FORWARD X 2. Press and hold additional times for FORWARD X 4, X 8, X 20 or PLAY. Press the ▶ || button on the control panel (3) or remote control (17) to end fast forward or reverse and resume normal playback.

Programmed Playback
1. Press the PROG button (7) on the remote control to access the programmed playback screen.
2. Use the◄ ► or ▲ ▼ cursor buttons (15) on the remote control to access the fields on the “PROG” screen.
3. Use the number buttons on the remote control to enter a track number in each field.
4. Press the ▶ || button (17) on the remote control or highlight “PLAY” on screen and then press the ENTER button (5) to begin playback in the numbered order indicated. To delete the list, highlight “CLEAR” and then press ENTER. Press PROG to exit the programmed playback screen.

Remote Control Direct Track Entry
To select a track directly, use the number pad on the remote control (9). For single digit entries, press the corresponding number. For two digit entries, press the 10+ button followed by the last digit (i.e., for track 16, press 10+ and then 6).

GOTO Direct Track/Chapter Access
Use the GOTO function to access a track (chapter) directly.
1. Press the GOTO button (25) on the remote control. The On Screen Display information will appear with the track number highlighted.
2. Use the number keys on the remote control to enter the 3-digit track number directly (i.e., for track 10, enter “010”).
3. Press the ENTER button to confirm and begin playback.

MP3 Playback Information
The following information is displayed at the top of the screen during CD playback:
TRK ##/## – “9/150” indicates the ninth of 150 tracks on the disc is currently playing.
X “X” indicates repeat play is OFF, “1” indicates repeat song, and “D” indicates repeat directory (folder).
Press button (26) repeatedly to view the following information for elapsed/remaining playing time:
F 00:02:18 – total elapsed playing time for disc
C 00:34:37 – remaining playing time
T 00:02:18 – total elapsed playing time for current track
C 00:34:37 – remaining playing time for current track
BLUETOOTH OPERATION

The JWM45 includes built-in Bluetooth technology that allows you to connect this head unit to Bluetooth devices for streaming audio playback.

About Bluetooth Technology
Bluetooth wireless technology is a short-range wireless radio protocol. Operating in the 2.4 GHz range, it transmits audio and data at speeds up to 2.1 Mbit/s over a range of up to 10 meters.

Bluetooth Menu Options

**NOTE:** Please note that some Bluetooth menu options are only available while the unit is in Bluetooth Audio mode.

Press the SETTING button (23) to enter menu adjustment mode. Repeatedly press the >>| or |<< buttons (5, 2) or SETTINGS button (23) to access the “Bluetooth On/Off” menu function. Rotate the volume encoder knob to select BLUETOOTH ON, the press the ENTER button (4) to turn the Bluetooth function On or Off. The following additional menu options are available when the unit is in Bluetooth mode.

- **Bluetooth Pair (ENTER):** Press and hold the BT button (10) for 3 seconds to start pairing with a Bluetooth enabled device.
- **Bluetooth Device:** Press the ENTER button to view a list of previously paired mobile devices models. Press the >>| or |<< buttons to view devices from the list. You cannot delete a device that is actively connected. Press the ENTER button to select the device. Press the >>| or |<< button to choose Lock/Unlock, Connect/Disconnect or Delete for this device.
  - **DISCONNECT/CONNECT:** To disconnect a paired device, press the ENTER knob button to temporarily remove the BT link. The link can be re-established through your phone menu by selecting the JWM45 for connection.
  - **LOCKED/UNLOCKED:** The JWM45 can store up to 5 devices for BT connection. The devices are stored in FIFO (First In First Out) order. To prevent a device from being bumped from the list when more than 5 devices are used, you must lock the device. To Lock/Unlock a device, press the ENTER button.
  - **DELETE:** To delete a device from the list, Press the ENTER button.

Pairing a Bluetooth Device
Before you begin, consult the owner’s manual for the Bluetooth device you want to pair with the JWM45.
Make sure the device you intend to pair with is on and ready to pair. Press BT button (10) to enter Bluetooth mode.
Press & Hold BT button to start Bluetooth pairing process. The JWM45 will display "PAIRING" and will be available to pair for 120 seconds.
In your device Bluetooth settings, select “JWM45” to connect.

Answering a Call
When answering a call using the connected phone, BT AUDIO will pause. After hanging up from the call, BT AUDIO will automatically resume on some phones. It may be necessary to press the play button to resume BT AUDIO.

Bluetooth Audio (A2DP)
The A2DP music is available for Bluetooth enabled phones when the phone is connected. To access Bluetooth mode and play songs stored in your phone, press the BT button (10) to enter the Bluetooth mode.

Selecting Tracks
During playback, press the >>| or |<< button (5, 2) to play the previous or next track.

Pausing Playback
During playback, press the ▶ II button (3) to pause the Bluetooth audio playback. “BT PAUSE” will appear on the LCD. Press ▶ II button again to resume playback.
If you change to another mode, the mobile device audio will pause. Press the BT button (10) to return to Bluetooth mode and resume mobile phone audio playback.
NOTE: If a Bluetooth device is disconnected due to the power being turned off or if the device is disconnected inadvertently, the unit will automatically search for the matching BT mobile phone when the power is restored.

DVD SETUP MENU

Press the button (10) on the remote control to access the SETUP menu and adjust system settings for the following categories:

- System Setup
- Language Setup
- Audio Setup
- Video Setup
- Speaker Setup
- Digital Setup

While in the setup menus, use your directional arrows to select and change settings. The "up" and "down" arrows highlight the options, and the "right" and "left" arrows will change the setting for the highlighted option.

System Setup

The System Setup menu controls the following features:

- TV System: This item is used to select a TV signal system to match your TV set. Select one of the following options: AUTO, NTSC or PAL.
- Screen Saver: Turn Screen Saver feature On/Off.
- Resolution: The fitness of detail that can be distinguished in an image. Select one of the following options: 480I/576L, 480I/576P, 720P, 1080I, 1080P.
- TV Type: Select one of the following picture formats: 4:3PS, 4:3 LB or 16:9. 4:3 is a letterbox selection, and 16:9 is wide screen.
- Password: This item allows the selection of a new four-digit code to use for security purposes.
- Rating: Select the parental control level for all DVD play. The security password is required to make changes to this feature.
- Default: Use this item to restore default settings at any time.

Language Setup

The Language Setup menu controls the following features:

- On-Screen Display (OSD) Language: Set the OSD language to one of the following: English, German, Spanish, French, or Portuguese.
- Audio Language: Set the audio language to one of the following: Chinese, English, Japanese, French, Spanish, Portuguese, Latin or German.
- Subtitle Language: Set the subtitle language to one of the following: Chinese, English, Japanese, French, Spanish, Portuguese, German or OFF.
- Menu Language: Set the menu language to one of the following: Chinese, English, Japanese, French, Spanish, Portuguese, German or Latin.
- CEC: Default setting "ON" allows power ON/OFF and source selection controls between devices connected via HDMI. Turn "OFF" to disable this feature.

Audio Setup

The Audio Setup menu controls the following features:

- Audio Out: This item defines the digital output format.
- HDMI Audio: Choose AUTO or PCM.
- Key: This item changes the audio output key.
**Video Setup**
The Video Setup menu controls the following features:

- **Brightness**: Adjust the brightness of the screen from the following levels: 12, 10, 8, 6, 4, 2 or 0.
- **Contrast**: Adjust the contrast of the screen from the following levels: 12, 10, 8, 6, 4, 2 or 0.
- **Hue**: Adjust the hue of the screen from the following levels: +6, +4, +2, 0, -2, -4 or -6.
- **Saturation**: Adjust the saturation of the screen from the following levels: 12, 10, 8, 6, 4, 2 or 0.
- **Sharpness**: Adjust the sharpness of the screen from the following levels: 8, 6, 4, 2 or 0.

**Digital Setup**
The Digital Setup menu controls the following features:

- **OP Mode**: Select LINE OUT or RF REMOD.
- **Dynamic Range**: Select FULL, 6/8, 4/8, 2/8 or OFF.
- **Dual Mono**: Select STEREO, MONO/L, MONO/R or MIX MONO.

**Speaker Setup**
The Speaker Setup menu controls the following features:

- **Downmix**: Choose LT/RT, STEREO or VSS.
- **Front**: Choose LARGE or SMALL.
CARE AND MAINTENANCE

- Keep the product dry. If it does get wet, wipe it dry immediately. Liquids might contain minerals that can corrode the electronic circuits.
- Keep the product away from dust and dirt, which can cause premature wear of parts.
- Handle the product gently and carefully. Dropping it can damage circuit boards and cases, and can cause the product to work improperly.
- Wipe the product with a dampened cloth occasionally to keep it looking new.
- Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the product.
- Use and store the product only in normal temperature environments. High temperature can shorten the life of electronic devices, damage batteries, and distort or melt plastic parts.

Ignition

The most common source of noise in reception is the ignition system. This is a result of the radio being placed close to the ignition system (engine). This type of noise can be easily detected because it will vary in intensity of pitch with the speed of the engine. Usually, the ignition noise can be suppressed considerably by using a radio suppression type high voltage ignition wire and suppressor resistor in the ignition system. (Most vessels employ this wire and resistor but it may be necessary to check them for correct operation.) Another method of suppression is the use of additional noise suppressors. These can be obtained from most CB/A radio or electronic supply shops.

Interference

Radio reception in a moving environment is very different from reception in a stationary environment (home). It is very important to understand the difference. AM reception will deteriorate when passing under a bridge or when passing under high voltage lines. Although AM is subject to environmental noise, it has the ability to receive at great distance. This is because broadcasting signals follow the curvature of the earth and are reflected back by the upper atmosphere.

**SPECIFICATIONS**

**FM Tuner**
- Frequency Coverage (USA): 87.5 to 107.9 MHz
- Frequency Coverage (Europe): 87.5 to 108 MHz
- Sensitivity: <4 μV
- Stereo Separation @1 kHz: >25 dB

**AM Tuner**
- Frequency Range (USA): 530-1710 kHz
- Frequency Range (Europe): 522-1620 kHz
- Sensitivity (S/N=20dB): <63 μV

**Amplifier**
- Output Power: 6W x 8
- Output Impedance: Compatible with 4-8 Ohm speakers, 4 ohm load minimum

**DVD**
- Frequency Response: 20-20,000 Hz
- Channel Separation: 50 dB
- S/N Ratio: 65 dB
- Distortion: 0.5%

**General**
- Power Supply Requirements: DC 12 Volts, Negative Ground
- Operating Voltage: 10-16 VDC
- Overall Dimensions: 208.0mm (W) x 110.0mm (D) x 130.0mm (H)
- Mounting Dimensions: 180mm (W) x 133mm (D) x 86mm (H)
- Weight: 3.2 lbs

**FCC Notes**

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

--- Reorient or relocate the receiving antenna.
--- Increase the separation between the equipment and receiver.
--- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
--- Consult the dealer or an experienced radio/TV technician for help.

WARNING: Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
