- **Back**: Press to exit any menu.
- **Zone Output**: Press any zone button (ZONE A and ZONE B) to control corresponding speaker output from the radio, SPK A, SPK B will appear on the display.

### App Control

- **App download and operation**: JControl app controls all of the primary functions of the JWM12A directly from your phone or tablet. It can be found by searching for "JENSEN JControl". After downloading and installing app, pair your device to the JWM12A as instructed in "Bluetooth Operation" section in this guide. Once your device is paired, open the app and use as instructed. (Device must be paired to JWM12A before opening and using app).

- **Audio Menu**
  - Power: Push to turn on. Press to cycle through sources. Press & hold to turn OFF and enter standby mode.
  - App Info: Press to bring up AUDIO ADJUSTMENT options: BASS, TREBLE, & BALANCE (left to right). Press & hold to bring up SETTING MENU options: BLUETOOTH (ON/OFF), BEEP, ADJUST LCD BRIGHTNESS, PRESET VOLUME and RESET. Press VOLUME UP/DOWN buttons will adjust each SETTING option except 'RESET'.
  - Note: Up to 18 FM & 12 AM channels can be stored.
  - Volume Control: Press the VOLUME UP \( \uparrow \) (M) button to increase volume or Press the VOLUME DOWN \( \downarrow \) (H) button to decrease volume.
  - Mute: Press to MUTE volume. Press again to resume volume.
  - TUNE/SEEK/TRACK: Press \( > \) button to tune frequency higher. Press \(<\) button to tune frequency lower. Press and hold to scan to next strongest station.
  - Back: Press to exit any menu.

### AM/FM Tuner Controls

- **BAND**: Press to select between two AM BANDS (AM1, AM2) & three FM BANDS (FM1, FM2, FM3).
- **STATION STORE PRESETS**: Press & hole to store current station. Press once to recall stored channel. NOTE: Up to 18 FM & 12 AM channels can be stored.
