Installation

Warnings

Do not place containers with liquids such as flower vases, soft drink cans, or medicine bottles or small metallic objects on top of the unit.
- If liquid enters the unit or any metal object falls into the unit, it may result in short-circuit, fire, or electric shock.

Do not use or store flammable or combustible materials near the unit.
- Doing so may result in fire or explosion.

Do not place the unit on an unstable surface, such as a wobbly stand or sloped table, or on any surface whose area is smaller than the bottom area of the unit.
- If a child climbs on the unit, it could topple and fall onto the child, resulting in serious injury to the child or damage to the unit. Place the unit on a flat stable surface.

Do not place the unit where it is exposed to rain, excessive moisture or grease.
- Doing so may result in fire, electric shock, malfunction, or deformation.

Do not place a burning candle, burning anti-mosquito incense, or lighted cigarette on top of the unit. Do not place the unit near any heat source such as a fireplace or space heater.
- Doing so poses a serious risk of fire.

Do not place the unit in a poorly ventilated enclosure, such as a cabinet.
- Doing so poses a serious risk of fire.

Do not run power cords near heat-producing appliances such as radiators, stoves, or irons.
- The excessive heat could melt the insulation and expose live wires, resulting in fire or electric shock.

Install the antenna away from high-voltage power lines and communication cables and make sure it is installed securely.
- If the antenna touches a power line, contact with the antenna could result in fire, electric shock, serious injury, or death.

Cautions

Install the unit at an adequate distance from the wall to ensure sufficient ventilation.
- If the temperature inside the unit rises, it may result in fire.

Do not cover the unit with a tablecloth, curtain, or other material.
- If the temperature inside the unit rises, it may result in fire.

Be sure to place the unit on a level surface.

- The following precautions are divided into "Warnings" and "Cautions".

⚠️ Warning: Ignoring this precaution may result in death or serious injury.
⚠️ Caution: Ignoring this precaution may result in injury or property damage.
### Use and Maintenance

#### Warnings

- Disconnect the power cord from the wall outlet during an electrical storm. Not doing so may result in fire or electric shock.
- Do not insert any metal objects, such as a screwdriver, paperclip, or bent wire into the ventilation openings or AV terminals. Doing so poses a serious risk of fire or electric shock.
- Do not allow children to climb or hang on the unit. The unit could topple over onto a child and result in serious injury.
- Never disassemble or modify the unit in any way. Do not attempt to service the unit yourself. Doing so may result in fire or electric shock. If the unit requires repair, contact the service center.

#### Cautions

- When not using the unit for long periods of time, disconnect the power cord from the wall outlet. Dust could accumulate over time on the unit and cause it to generate heat and ignite, or deteriorate insulation, which in turn may result in an electrical fire.
- When moving the unit, be sure to turn off the unit and unplug the power cord from the wall outlet. Moving the unit with the power cord connected to the outlet may cause damage to the cord, resulting in fire or electric shock.
- If you notice any unusual odors or smoke around the unit, immediately disconnect the unit from the outlet and contact the service center. Failure to do so may result in fire or electric shock.
- Always use two or more people to lift or move the unit. If the unit is dropped, it could be damaged or otherwise cause injury.
- Wipe off any moisture, dirt, or dust on the power plug pins with a clean dry cloth. Failure to do so may result in fire or electric shock.
- It is advisable to clean the interior of the unit at least once a year. Contact the store of purchase or service center for information. Continuing to use the unit without cleaning off the dust buildup inside it may result in fire or electric shock.
- When removing the batteries from the remote control, make sure children do not swallow them. Keep the batteries out of the reach of infants and children. If a child has swallowed a battery, seek medical attention immediately.
- Always turn off the unit and unplug the power cord when cleaning the unit. Use a soft dry cloth to clean the unit. Never clean with industrial strength polish, wax, benzene, paint thinner, air freshener, lubricant, detergent, or other such chemicals. Also, do not clean with a damp cloth.
Important Safety Instructions

Warnings and Precautions

To prevent any injuries, the following safety precautions should be observed in the installation, use, servicing and maintenance of this equipment.
Before operating this equipment, please read this manual completely, and keep it nearby for future reference.

1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with a dry cloth.
7) Do not block any of the ventilation openings. Install in accordance with the manufacturer's instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. When the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use the attachments/accessories specified by the manufacturer.
12) Use only with a cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13) Unplug this apparatus during lightning storms or when unused for long periods of time.

14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

• Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus

NOTE TO CABLE/TV INSTALLER:

This reminder is provided to call the CATV system installer’s attention to Article 820-40 of the National Electric Code (U.S.A.). The code provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of the cable entry as practical.

Apparatus with Class I construction shall be connected to a Mains socket outlet with a protective earthing connection.
**Important Safety Instructions**

**WARNING**

TO PREVENT DAMAGE WHICH MAY RESULT IN FIRE OR ELECTRIC SHOCK HAZARD, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.

**Caution**:
- These servicing instructions are for use by qualified service personnel only.
- To reduce the risk of electric shock, do not perform any servicing other than that contained in the operating instructions unless you are qualified to do so.
- Any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

**Important**:

One Federal Court has held that unauthorized recording of copyrighted TV programs is an infringement of U.S. copyright laws. Certain Canadian programs may also be copyrighted and any unauthorized recording in whole or in part may be in violation of these rights.

**REGULATORY INFORMATION**:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

- To turn on the LCD TV
  - Press the power button on the back of the LCD TV to **on** first.

- Be sure to turn off the power and unplug both units from the wall outlet before making any connections.
Mounting on a Desktop

- Your LCD TV can be mounted on a Desktop as shown in the figure above.
- This is not a floor-standing unit.

Installation Precautions

Wall Mounting

- Please secure enough space for safe use. (Please refer to A and B.)
- Installation of the LCD TV in an improperly ventilated location can cause a fire or damage to the LCD TV due to increased temperature.

A
(Mounting on a wall)

Contact your dealer to purchase the "Adjustable-angle wall mount" required for wall-mounted installation.

Using the Stand

- Do not install on an unstable location with support area smaller than the LCD TV.
- Please refer to the desktop stand user’s manual for details of installation.

B
(Using the Stand)
Installing an Antenna

- For connecting to ATSC or NTSC broadcasts

Press SOURCE button on the remote control to select TV, then press RIGHT button to confirm. Then you can receive the ATSC/NTSC signal.
Remote Control

Functions of remote control buttons

The remote control is using Infra-Red (IR). Point it towards the front of the LCD TV. The remote control may not work correctly if it is operated out of range or out of angle.

SLEEP

Cycles through the LCD TV sleep time:
Off/ 5/ 10/ 15/ 30/ 60/ 90/
120/ 180/ 240 minutes.

RETURN

Returns to previously selected channel.

PICTURE

Press PICTURE to cycle select picture types: Standard/ Dynamic/ Soft/ Personal

SOUND

Press SOUND to cycle select picture types: Standard/ Music/ Movie/ Personal

INFORMATION

Press INFO to display a variety of information about current channel,

VOL. -

Decreases volume or LEFT choice.

CH -

Decreases channels or DOWN choice.

POWER

Turns the LCD TV on and off

MUTE

Press once mutes sound,
Press again to restore sound.

NUMERIC KEYS

Press “*” button after you input the current program number, then press 0-9 numeric buttons to be allowed to choose the sub-frequency channel.

SOURCE

Press SOURCE to select the video and audio inputs of your LCD TV:
TV, AV1, AV2, S-Video, Component, HDMI1, HDMI2, VGA

ENTER

Press ENTER to confirm your operations.

MENU

Display the OSD menu on the screen.

VOL. +

Increases volume or RIGHT choice.

CH +

Increases channels or UP choice.
Remote Control

C · LIST
Press this button to display the channel list.

F · LIST
Press this button to display the favourite list.

SCALE
Cycles among scale mode: Wide, Cinemal, Normal, Zoom.

EPG
Press EPG to display the program guide.

MTS
Press MTS to select Stereo, SAP or Mono. Note: This button can only be used under NTSC mode.
Avoiding Remote Control Problems

1. Check the polarity (+,-) of the batteries in the remote control.
2. Check that the batteries have power.
3. Check that the LCD TV is powered and that it is properly plugged in.
4. Check if any three-wavelength lamp, special fluorescent or neon sign is turned on near the LCD TV.

Inserting Batteries in the Remote Control

1. Open the cover completely.
2. Insert the two supplied batteries (AAA, 1.5V). Ensure that the polarities (+ and -) of the batteries are aligned correctly.
3. Slide back the cover.

⚠️ CAUTION: Risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the national code (Recycling program).

How to use remote control

- The remote control should be operated within 30 feet (7m) and 30 ° to the left and the right of the IR receiver at the front of the LCD TV.
- Used batteries should be disposed properly.
VCR Connections

- Connecting to the Composite terminal
  - Connection terminals of other equipments differ by manufacturer and model.
  - Connect the LCD TV's Composite In terminal to the VCR's Composite Out terminal using the Composite cable. (Make sure the color of the terminals and the color of the cable are the same)

- Connecting to the S-Video terminal
  - Use the S-Video cable for higher picture quality.

Watching Video Tape

1. Turn on the LCD TV and press [ ] on the remote control.
2. Use [ ] to move to "AV 1 or 2".
   - If S-Video has been connected, select "S-Video".
3. Turn on the VCR, insert the tape and press play button.
Connection

Satellite/ Cable TV Set-Top Box Connections

● Connecting to the Composite terminal
- In order to watch Cable TV, Subscribe to your local Cable TV company and install a separate receiver (Set-Top-Box).
- Connection terminals of other equipments differ by manufacturer and model.

Connect the LCD TV's Composite In terminal to the cable broadcasting receiver Composite Out terminal using the Composite cable. (Make sure the color of the terminals and the color of cable are the same)

● Connecting to S-Video terminal

Use the S-Video cable for higher picture quality.

● Connecting to the HDMI terminal

Watching Cable TV

1. Turn on the LCD TV and press \[\text{SOURCE}\] on the remote control.
2. Use \[\text{P} \to \text{A}\] to move to "AV 1 or 2".
   - If S-Video has been connected, select "S-Video".
   - If HDMI has been connected, select "HDMI".
3. Turn on the cable broadcasting receiver and select the channel you wish to view.
**DVD Connections**

- Connecting to the component terminal
  - Connection terminals of other equipments differ by manufacturer and model.

  1. Connect LCD TV's Y, Pb, Pr terminal to DVD's Video Out terminal using the external cable.
  2. Connect LCD TV's Audio terminals (left & right) in AV 1 to DVD's Audio Out terminal using the Audio cable.
  3. It must match the component connection cable Y, Pb, Pr between the LCD TV and DVD Player.

- Connecting to the S-Video terminal
  - S-Video cable can be used if there is an S-Video terminal.

- Connecting to the HDMI terminal
  - Connecting from HDMI terminal to HDMI terminal.

**Playing the DVD**

1. Turn on the LCD TV and press the remote control.
2. Use to move to "YPbPr".
   - If S-Video has been connected, select "S-Video".
   - If HDMI has been connected, select "HDMI".
3. Turn on the DVD, insert the DVD disc and press Play button.
PC Connections

- Connection terminals of other equipments differ by manufacturer and model.

- Connect LCD TV’s PC Input terminal to PC’s RGB terminal using the D-Sub cable.
- Connect LCD TV’s PC Audio terminal to PC’s Audio terminal using the Audio cable. (Only for PC’s with Audio terminal)

How to Use as PC monitor

1. Turn on the LCD TV and press [ ] on the remote control.
2. Use [ ] to move to "VGA".
Audio Amplifier and Monitor Connections

- Connecting to the Audio Amplifier and Monitor
  - Connection terminals of other equipments differ by manufacturer and model.

  ![Diagram of Audio Amplifier and Monitor Connections]

- Connect LCD TV’s AUDIO(L/R) output terminal to Audio Amplifier using an audio patch cable.
  Note: The speakers of LCD TV still have output audio signal at this time.

- You can use the Volume +/- buttons to adjust the output audio signal.

Digital Amplifier Connections

- Connecting to the Digital Amplifier
  - Connection terminals of other equipments differ by manufacturer and model.

  ![Diagram of Digital Amplifier Connections]
Powering the LCD TV

- **Power on/off**
  - Press \[ \text{I} \] on the back of the LCD TV to \[ \text{I} \] first.

  - To turn the LCD TV on:
    - Press the "POWER" button.

  - To turn the LCD TV off:
    - Press "POWER" button on the LCD TV.

  - To turn on/off by remote control:
    - Press the "POWER" button of remote control.

Selecting Input Source

- You can select between the TV signal and the input signal of other equipments connected to the TV.
- Use this function to switch to the input source you wish to view.

  - **Press** \[ \text{SOURCE} \] button on the remote control.

  - **Use** to move to the desired input source.

  - **Press** to select.

  ![INPUT SOURCE](image)
Operating the Menu

1. Press the POWER button to turn the LCD TV on.
2. Press the MENU button on the remote control, the on-screen menu will appear on the screen.
3. Use the LEFT and RIGHT buttons to select your main menu option.

PICTURE MENU:
Allows you to make adjustments to your picture settings.
(select TV source for example)

SOUND MENU:
Allows you to customize the sound options and effects.
(Select TV source for example)

TIMER MENU:
Allows you to set up a variety of timer options.
(Select TV source)

SETUP MENU:
Allows you to set up a variety of setup options.
(Select TV source)

LOCK MENU:
Allows you to set up a variety of lock options.
(Select TV source)

CHANNEL MENU:
Allows you to search channels and set up a variety of channel options.
(Select TV source)

3. Use the UP / DOWN buttons to select an option of the sub-menu, and press the RIGHT button.
   While in adjustment mode, use the LEFT/RIGHT button to change the value of the item.
4. Press the MENU button to exit the menu.

Note:
Only when you input the suitable signal, the relevant items can be activated.
Customizing the PICTURE Settings

Select TV source for example. (Press SOURCE button to select TV mode)
1. Press the POWER button to turn the LCD TV on.
2. Press the MENU button on the remote control to display the Main menu, and use the LEFT and RIGHT buttons to select the PICTURE.
3. Use the UP and DOWN buttons to highlight an individual PICTURE option, use the LEFT and RIGHT buttons to change the setting, and press the MENU to exit the menu.

The PICTURE menu includes the following options:

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>

<td>Input PC signal first, then press SOURCE button to select VGA mode, press RIGHT button to confirm.</td>
</tr>
</tbody>
</table>

H-Position | Allows you to use LEFT and RIGHT button to adjust the H Position.
V-Position | Allows you to use LEFT and RIGHT button to adjust the V Position.
Clock      | Allows you to prolong the image.
Phase      | Allows you to adjust the definition.
Auto       | Select “Auto” and press RIGHT, the unit will automatically adjust all items to achieve a best effect.
Customizing the SETUP Settings

Close Caption
Use Down button to highlight the Close Caption item, then press RIGHT button to enter into the following menu.

CC Mode
Allows you to select the CC Modes: On, Off and CC on Mute.

Basic Selection
Allows you to select the basic selections: CC1, CC2, CC3, CC4, Text1, Text2, Text3 and Text4.

Advanced Selection
Allows you to select the advanced selections: Service1, Service2, Service3, Service4, Service 5 and Service 6.

Option
Use Down button to highlight the "Option" item, then press RIGHT button to enter into the following menu.

Audio Only
Use Down button to highlight the "Audio Only" item, then press RIGHT button to enter into the following menu, and operate follow the introductions in the menu.

Restore Default
Restores all settings in SETUP menu to factory settings.
Customizing the LOCK Settings

Select TV source for example. (Press SOURCE button to select TV mode)

1. Press the POWER button to turn the LCD TV on
2. Press the MENU button on the remote control to display the Main menu, and use the LEFT and RIGHT buttons to select the LOCK
3. Use the DOWN button to highlight the “Enter Password” item, use the numeric keys to input 4-digital password.
   After you that, the screen will display the junior menu. After settings, press menu button to exit.

NOTE: The factory password is 0000.

The LOCK menu includes the following options:

- **Change Password**
  Use DOWN button to select the “Change Password” item, then press RIGHT button to enter into the following menu.

- **System Lock**
  Allows you to turn on or off the system lock.
  If you turn off the system lock, then the following items (US, Canada, RRT Setting and Reset RRT) will unable to use.
**Customizing the LOCK Settings**

**US**

Use Down button to highlight the “US” item, then press RIGHT button to enter into the following menu.

Use UP and DOWN buttons to select the desired rating and press RIGHT button to block or unblock rating.

**TV**

Use Down button to highlight the “TV” item, then press RIGHT button to enter into the following menu.

Use UP and DOWN buttons to select the desired rating and press RIGHT button to block or unblock rating.

**MPAA**

The Movie rating (MPAA) is used for original movies rated by the Motion Picture Association of America (MPAA) as broadcasted on cable TV and not edited for television. Use UP or DOWN button to select N/A, G, PG, PG-13, R, NC-17 or X.

<table>
<thead>
<tr>
<th>RATING</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>G</td>
<td>General Audiences. Movie is appropriate for all ages.</td>

<td>Restricted. Contains adult content, no one under 17 admitted without parent.</td>
</tr>
<tr>
<td>NC-17</td>
<td>No one 17 and under admitted.</td>
</tr>
<tr>
<td>X</td>
<td>Adults only.</td>
</tr>
</tbody>
</table>
Customizing the LOCK Settings

Canada
Use Down button to highlight the “Canada” item, then press RIGHT button to enter into the following menu.

Canada Eng  Use LEFT and RIGHT buttons to select among: E, C, C8+, G, PG, 14+ and 18+

Canada Fre  Use LEFT and RIGHT buttons to select among: E, G, 8ans+, 13ans+, 16ans+ and 18ans+

RRT Setting

Reset RRT  Allows you to reset the RRT setting.
Customizing the CHANNEL Settings

Select TV source for example. (Press SOURCE button to select TV mode)

1. Press the POWER button to turn the LCD TV on.
2. Press the MENU button on the remote control to display the Main menu, and use the LEFT and RIGHT buttons to select the CHANNEL.
3. Use the UP and DOWN buttons to highlight an individual CHANNEL option, use the LEFT and RIGHT buttons to change the setting, and press the MENU button to exit.

The CHANNEL menu includes the following options:

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Antenna</td>
<td>Allows you to select antenna between Air and Cable. If you select “Cable”, the following items (Favorite, Show/Hide, Channel NO., Channel Label and DTV Signal) are unable to use.</td>
</tr>
<tr>
<td>Auto Scan</td>
<td>Use Down button to highlight the “Auto Scan” item, then press RIGHT button to enter into the following menu.</td>
</tr>
<tr>
<td></td>
<td>If you select “Air” as input signal in Antenna item, you can press RIGHT button to search the channels automatically.</td>
</tr>
<tr>
<td></td>
<td>The receivable channels will be stored automatically. When searching channels, press MENU to stop.</td>
</tr>
</tbody>
</table>
Customizing the CHANNEL Settings

If you select “Cable” as input signal in Antenna item, allows you to select Cable Systems: Auto, STD, IRC and HRC.
Use DOWN button to highlight the “Start to Scan”, then press RIGHT button to search the channels automatically.

Use UP or DOWN button to highlight the “Favorite” item, then press RIGHT button to enter into the following menu.

![Favorite Menu]

Use UP and DOWN button to highlight the desired item, then press ENTER button to add or remove the highlighted channel as favorite.

**Show / Hide**
Allows you to show or hide the channels.
Use UP or DOWN button to highlight the “Show / Hide” item, then press RIGHT button to enter into the following menu.

![Show / Hide Menu]

Use UP and DOWN button to highlight the desired item, then press ENTER button to show or hide the highlighted channel.

**Channel No.**
Display the number of current channel.

**Channel Label**
Display the label of current channel.

**DTV Signal**
Display the quality of current DTV signal.
- Do not use other functions that are not mentioned in this user's manual.
- In case a problem occurs with your LCD TV, please take the following steps first.
- If you still have the problem, turn the power off and contact your dealer or an authorized service center.

<table>
<thead>
<tr>
<th>Problem</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>The screen does not appear.</td>
<td>Is the power plug pulled out? Insert the power plug. Press the power button of the remote control.</td>
</tr>
<tr>
<td>The screen appears too slowly after the power is turned on.</td>
<td>This problem occurs for a brief time in the process of image elimination processing in order to hide temporary screen noise that occurs when the power is turned on. But if the screen does not come after 1 minute contact your dealer or an authorized service center.</td>
</tr>
<tr>
<td>Screen is too bright or too dark.</td>
<td>Perform brightness adjustment or Contrast adjustment.</td>
</tr>
<tr>
<td>Screen is too large or too small.</td>
<td>Adjust the screen size.</td>
</tr>
<tr>
<td>Stripes appear on the screen and it shakes.</td>
<td>Stop using wireless telephones, hair driers and electric drills.</td>
</tr>
<tr>
<td>The screen does not move.</td>
<td>Press the PAUSE button. Check if the Pause button is pressed on external equipment.</td>
</tr>
<tr>
<td>Screen appears, Voice is not heard</td>
<td>1. Press the &quot;MUTE&quot;button.</td>
</tr>
<tr>
<td></td>
<td>2. Increase the sound level by pressing volume adjustment button.</td>
</tr>
<tr>
<td></td>
<td>3. Check if sound terminal of external input is connected properly.</td>
</tr>
<tr>
<td></td>
<td>4. Check if audio cables are connected properly.</td>
</tr>
<tr>
<td></td>
<td>5. Select and check the other input.</td>
</tr>
<tr>
<td></td>
<td>If the sound still does not work and the other channels are the same after you have done as the above, contact your dealer or an authorized service center.</td>
</tr>
<tr>
<td>Remote control does not work</td>
<td>1. Check if main power is On.</td>
</tr>
<tr>
<td></td>
<td>2. Check that the batteries of the remote controller were loaded properly.</td>
</tr>
<tr>
<td></td>
<td>3. Check to see if any obstacle exists between the LCD TV and the remote control, then remove it, if any.</td>
</tr>
<tr>
<td></td>
<td>4. If the batteries have no power, replace them with two new batteries.</td>
</tr>
</tbody>
</table>

LCD-TV Wall mounting assembly instruction

1. Lay the TV down with the rear facing up on a non-abrasive surface.

2. Remove the six screws shown in figure A with a Phillips screwdriver.

3. Remove the stand from the TV by pulling it out of the cabinet. See Figure B.
4. Insert the supplied plastic stand cover as shown in Figure C and D.

5. Remove the 4 screws shown in Figure E.

6. Attach the wall mounting bracket (not supplied) using these 4 screws.
