Features

Features of the Jensen MP5000 mobile audio system include:

• Digital AM/FM Tuner
• Skip Protected Disc Mechanism
• CD-R/RW and MP3 Compatible
• Time/Alarm Clock
• Backlit Controls
• Auxiliary Audio/Video Input
• Headphone Output
• 3 Zone / 6 Speaker Output (75W)
• Wireless Remote Included
Installation

Select Mounting Location

Select a mounting location, taking care to avoid the following:

- Places exposed to heat-radiating appliances such as electric heaters
- Adjacent to other equipment that radiates heat
- Poorly-ventilated or dusty places
- Moist or humid locations

Preparing the Opening

Use the mounting hole diagram (below) to measure and cut a mounting hole, and mount the unit using the four 3x20min self-tapping screws provided.

Note: Before cutting the mounting hole, make sure the area behind the mounting location is clear of wires and fuel, vacuum and or brake lines.

Mounting Hole Diagram

Mounting the Radio

Route power, speaker and antenna cables through the hole, and connect them to the unit as outlined in the wiring diagram. After ensuring correct connections, test operation.
Wiring

The wiring diagram depicts all the wiring connections required for proper operation of the unit.
Basic Operation

1. Power / Volume Control
Press the power button (1) to turn the unit on or off. This button also serves as the volume control knob; rotate clockwise or counterclockwise to increase or decrease the volume output.

2. Mute / Loudness
Press MUTE (2) momentarily to silence the audio output in tuner, CD, DVD or auxiliary input mode. Press MUTE again to resume the previous volume level. This button is also used to access the Loudness function; press and hold MUTE to toggle the Loudness function on and off.

3. Liquid Crystal Display (LCD)
The liquid crystal display (LCD) panel (3) displays the frequency, time and activated functions. Note: When subjected to cold temperatures for an extended period of time, LCD panels will take longer to illuminate and the display visibility may slightly decrease. Optimal LCD operation will return to normal when the temperature increases to a normal range.
4. Audio Adjustment
Press AUD (4) momentarily to step through the following audio adjustment options: Volume, Bass, Treble, Balance (left to right) and Fader (front to back). When the desired option appears in the display, rotate the volume control knob (1) to adjust that audio feature. When no adjustments have been made for three seconds, the unit will resume normal operation.

5. Auxiliary Input Function
Press AUX (5) to directly access auxiliary input mode from any other function mode when portable audio device is connected to the unit. To connect a portable audio device, insert a standard 3.5 mm (audio line output or headphone output from your portable CD / MP3 / iPod or other media player) into an “AUX IN” jack on the front or rear of the unit.

Note: For front panel A/V input, an external audio/video (A/V) source such as a video game player, camera, etc. can be connected to the front panel A/V input with a separately purchased 3.5mm A/V cable adapter. Connect the device to the A/ V input on the front panel, and press AUX to engage the input circuit. Please note that there are several A/V cable “standards” which differ from each other. The MP5000 is designed to support the Apple Video iPod™ cable type, as shown in the inset drawing.

6. Time/Frequency Display
Press T/F (6) momentarily to display the time while in Tuner, CD, DVD or auxiliary input mode.

7. Setting the Clock
Press T/F (6) to display the clock. Press and hold T/F, and the number representing the hours will flash. Press TUN/TRK UP or DN (7) to adjust the hour. Press T/F again briefly, and the number representing the minutes will flash. Press TUN/TRK UP or DN to adjust the minutes. The new time will be saved five seconds after the last adjustment is made.

8. Setting the Alarm
To set the alarm to a specific time, press ALARM SET (8a), and the alarm time will appear in the display with the number representing the hours flashing. Press TUN/TRK UP or DN (7) to adjust the hour. Press ALARM SET again, and the number representing the minutes will flash. Press TUN/TRK UP or DN to adjust the minutes. Once a time is set, press ALARM ON/OFF (8b) to turn the alarm function on or off.

9. Speaker Output
The three speaker output buttons (9) (SPEAKER A, SPEAKER B and SPEAKER C) control speaker output from the radio. Press any of the three buttons to turn the corresponding speaker on or off. The red light above each button will illuminate when that speaker is turned on.
**Tuner Operation**

10. **Select a Band**

Press AM/FM (10) momentarily to directly access tuner mode from any other function mode. When the unit is already in tuner mode, briefly press AM/FM to change between two AM bands (AM1 and AM2) and three FM bands (FM1, FM2 and FM3).

11. **Tuning**

**Manual Tuning**

Briefly press TUN/TRK UP or DN (11) to tune the frequency one step higher or lower.

**Seek Tuning**

Press and hold TUN/TRK UP or DN to automatically tune up or down to the next strong station.
12. Preset Stations

Store Preset Stations
Six numbered preset buttons (12) store and recall stations for each AM and FM band. To store a station, select a band (if needed), then select a station. Hold a preset button for three seconds. The current station will be stored, and the corresponding preset number will appear in the display.

Recall Preset Stations
To recall a station, select a band (if needed). Press a preset button momentarily, and the unit will tune to the corresponding stored station.

13. Automatically Store / Preset Scan (AS/PS)

Automatically Store
Press AS/PS (13) for more than three seconds, and the unit will automatically scan for and store the six strongest stations in the current band. To stop this function before the automatic storing is complete, briefly press AS/PS again.

Preset Scan
Briefly press AS/PS to scan all preset stations in the current band. The unit will play each station for five seconds before moving on to the next station. To stop this function before the scan is complete, briefly press AS/PS again.
CD Operation

14. Insert and Eject CD

Insert CD
Insert a CD label-side up into the CD slot (14a), and the disc will begin to play.

Eject CD
Press the eject button (14b) to stop CD play and eject the CD.

15. Pause
Press the play/pause button (15) to suspend and resume disc play.

16. Track Select
Briefly rotate the TUN/TRK knob (16) to advance to the next or previous track on the CD. The selected track number will appear on the display. Rotate the TUN/TRK knob for more than three seconds to fast forward or fast reverse through the disc. CD play starts when the play/pause button is pressed.
17. Intro Scan (INT)
Press and hold INT (17) for more than three seconds during disc play to play the first 10 seconds of each track on the current disc. Press INT again to end the scan and play the selected track.

18. Repeat (RPT)
Press and hold RPT (18) for more than three seconds during disc play to continuously repeat the selected track. Press and hold RPT again to stop repeating.

19. Random Shuffle (RDM)
Press and hold RDM (19) for more than three seconds during disc play to play all tracks on a CD in random, shuffled order. Press and hold RDM again to stop random play.

**DVD Operation**

While the majority of DVD functions are controlled by the included remote control, the following DVD functions may also be accessed using buttons on the radio’s front panel. Please see the following page for a comprehensive overview of DVD operation using the remote control.

20. Stop
Press STOP (20) to suspend disc play, and “STOP” will appear in the display. Press the play/pause button (15) to resume disc play.

21. Menu
Press MENU (21) to return to the root menu while in DVD mode.

22. Enter
While in menu mode, press ENTER (22) to select a menu option.

23. Language
While playing a DVD, press LANG (23) to select the audio language.
**DVD Operation (continued)**

The included remote control operates many functions of the unit, including DVD functions. The following buttons on the remote correspond with buttons on the front panel of the radio to control basic, tuner and CD functions in the same manner as described in those sections:

**Remote Control**

**Basic, Tuner & CD Functions**

Power (24)

Menu (25)

Mute (26) or Loud (hold for one second)

Eject (27)

Tune + and Tune - (28)

VOL ▲ and VOL ▼ (29)

Fast Forward and Fast Reverse (30)

T/F (31)

Stop (32)

Play/Pause (33)

Language (34)

Repeat (35)

Source (36)

Audio (37)

Enter (38)
39. **Numeric Buttons**
To directly access a track, press the corresponding numeric button (1-9) (39). To access a track with a number of 10 or greater, press 10+, then the other numbers. For example, to access track 12, press 10+, then 1, then 2.

40. **Directional Arrows**
While in the DVD menu, press any of the four directional arrows (40) to move the cursor to the desired menu item. Press ENTER (either on the radio or the remote) to confirm the highlighted selection.

41. **Title**
Press TITLE (41) during DVD play to enter the title menu, then use the directional arrows and play button to select and play the desired title. *Note: This feature may not be supported by all disks.*

42. **Zoom**
Press ZOOM (42) during DVD play to zoom the picture, or press ZOOM repeatedly to change the magnification level.

43. **Angle**
Press ANGLE (43) to select different visual angles if stored on the disc.

44. **Go To**
Press GOTO (44) during disc play to select time, track or chapter.

45. **Setup**
Press the setup button (45) to enter the setup menu.

46. **Subtitle**
Press the subtitle button (46) to select subtitles.

47. **Display**
Press the display button (47) to display current playback information on the screen.

Remote Control
DVD Function
DVD Operation (continued)

DVD Setup

Press SETUP on the remote control to access setup mode, which allows setup of the following four DVD functions:

- System Setup
- Language Setup
- Audio Setup
- Video Setup

While in the setup menus, use your directional arrows to select and change settings. The “up” and “down” arrows highlight the options, and the “right” and “left” arrows will change the setting for the highlighted option.

System Setup

The system setup menu controls the following features:

<table>
<thead>
<tr>
<th>SYSTEM SETUP</th>
</tr>
</thead>
<tbody>
<tr>
<td>TV SYSTEM</td>
</tr>
<tr>
<td>VIDEO</td>
</tr>
<tr>
<td>TV TYPE</td>
</tr>
<tr>
<td>PASSWORD</td>
</tr>
<tr>
<td>RATING</td>
</tr>
<tr>
<td>DEFAULT</td>
</tr>
<tr>
<td>EXIT SETUP</td>
</tr>
</tbody>
</table>

**TV System:** This item is used to select a TV signal system to match your TV set. Select one of the following options: NTSC, PAL60, PAL or AUTO.

**Video Format.**

TV Type: Select one of the following picture formats: 4:3PS, 4:3 LB or 16:9. 4:3 is a letterbox selection, and 16:9 is wide screen.

**Password:** This item allows the selection of a new four-digit code to use for security purposes.

**Rating:** Select the parental control level for all DVD play. The security password is required to make changes to this feature.

**Default:** Use this item to restore default settings at any time.
Language Setup

The language setup menu controls the following features:

**LANGUAGE SETUP**

<table>
<thead>
<tr>
<th>Feature</th>
<th>Language</th>
</tr>
</thead>
<tbody>
<tr>
<td>OSD LANGUAGE</td>
<td>ENGLISH</td>
</tr>
<tr>
<td>AUDIO LANG</td>
<td>GERMAN</td>
</tr>
<tr>
<td>SUBTITLE LANG</td>
<td>SPANISH</td>
</tr>
<tr>
<td>MENU LANG</td>
<td>FRENCH</td>
</tr>
<tr>
<td></td>
<td>PORTUGUESE</td>
</tr>
<tr>
<td>EXIT SETUP</td>
<td>ITALIAN</td>
</tr>
</tbody>
</table>

**On-Screen Display Language:** Set the on-screen display language ON.

**Audio Language:** Set the audio language to one of the following: English, German, Spanish, French, Portuguese or Italian.

**Subtitle Language:** Set the subtitle language to one of the following: English, German, Spanish, French, Portuguese or Italian.

**Menu Language:** Set the menu language to one of the following: English, German, Spanish, French, Portuguese or Italian.

Audio Setup

The audio setup menu controls the following features:

**AUDIO SETUP**

<table>
<thead>
<tr>
<th>Feature</th>
<th>Setting</th>
</tr>
</thead>
<tbody>
<tr>
<td>AUDIO OUT</td>
<td>SPDIF/OFF</td>
</tr>
<tr>
<td>KEY</td>
<td>SPDIF/RAW</td>
</tr>
<tr>
<td></td>
<td>SPDIF/PCM</td>
</tr>
</tbody>
</table>

**Audio Out:** This item defines the digital output format.

**Key:** This item changes the audio output key.
DVD Operation (continued)

Video Setup

The video setup menu controls the following features:

<table>
<thead>
<tr>
<th>Feature</th>
<th>Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>Brightness</td>
<td>12</td>
</tr>
<tr>
<td>Contrast</td>
<td>10</td>
</tr>
<tr>
<td>Hue</td>
<td>8</td>
</tr>
<tr>
<td>Saturation</td>
<td>6</td>
</tr>
<tr>
<td>Sharpness</td>
<td>4</td>
</tr>
<tr>
<td>Exit Setup</td>
<td>0</td>
</tr>
</tbody>
</table>

**Brightness:** Adjust the brightness of the screen from the following levels: 12, 10, 8, 6, 4, 2 or 0.

**Contrast:** Adjust the contrast of the screen from the following levels: 6, 4, 2, 0, -2, -4 or -6.

**Hue:** Adjust the hue of the screen from the following levels: 6, 4, 2, 0, -2, -4 or -6.

**Saturation:** Adjust the saturation of the screen from the following levels: 12, 10, 8, 6, 4, 2 or 0.

**Sharpness:** Adjust the sharpness of the screen from the following levels: 0, 2, 4, 6 or 8.
# Specifications

**General**
- Power Supply Requirements: DC 12 Volts, Negative Ground
- Operating Voltage: 11-16VDC
- Overall Dimensions: 265mm(W) x 178mm(H) x 159mm(D)
- Mounting Dimensions: 235mm(W) x 154mm(H) x 133mm(D)
- Weight: 3.75 lbs. (1.7 Kg)

**FM Tuner**
- Tuning range: 87.5-107.9FM
- Sensitivity: <2.5uV
- Stereo separation @ 1 kHz: >30dB

**AM Tuner**
- Tuning range: 530-1710
- Sensitivity: <15uV

**Amplifier**
- Output Power: 75 Watts Total (25 Watts per Channel)
- Output Wiring: 2/6 Speaker and Headphone System
- Output Impedance: Compatible with 4-8 Ohm Speakers, 4 Ohm Load Minimum
- Total system power: 75 Watts Maximum

**DVD**
- Frequency Response: 20-20,000 Hz
- Channel Separation: 50dB
- S/N Ratio: 70dB
- Distortion: 0.2%
